

## **Product Specification**

## Gallic Acid, Saturated

Lot Number: SAMPLE

## Product Number: R3224999

## Manufacture Date: N/A

Expiration Date: N/A

Because this is a saturated solution, precipitation is normal and expected. The supernatant solution is still suitable for use.

| Name                    | CAS#          | Grade           |  |
|-------------------------|---------------|-----------------|--|
| Water                   | 7732-18-5     | ACS/ASTM/USP/EP |  |
| Gallic Acid Monohydrate | 5995-86-8     | ACS             |  |
| Test                    | Specification | Result          |  |

AppearanceColorless to light tan liquidN/AVolumetric glassware complies with Class A tolerance requirements of ASTM E 288 and NIST Circular 434; it is calibrated before first use and<br/>recalibrated regularly in accordance with ASTM E 542 and NIST Procedure NBSIR 74-461. Balances are calibrated regularly with weights certified<br/>traceable to the NIST national mass standard. Thermometers and temperature probes are calibrated before first use and recalibrated regularly with  $\varepsilon$ <br/>thermometer traceable to NIST standards. All products are prepared according to master documents that assure manufacture according to validated<br/>methods. Batch records document raw material traceability and production and testing history for each lot manufactured.

| Part Number   | Size / Package Type | Shelf Life (Unopened Container) |
|---------------|---------------------|---------------------------------|
| R3224999-1A   | 1 L natural poly    | 12 months                       |
| R3224999-4A   | 4 L natural poly    | 12 months                       |
| R3224999-500A | 500 mL natural poly | 12 months                       |

Recommended Storage: 15°C - 30°C (59°F - 86°F)
